DETAILED ACTION

1. Claims 1-10 are pending and have been examined.
2. Claims 1-10 are allowed.

Drawings

3. Applicant's remarks page 4 filed August 15, 2006 indicates two(2) replacement sheets of drawings, that included descriptive legends for figures 1-3, were attached to the Office Action, however no drawings are found in the record. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

Allowable Subject Matter

4. The following is an examiner's statement of reasons for allowance:

Applicant's arguments filed August 15, 2006 were persuasive to overcome the prior art rejections of record. Applicant's argument stating, "the Examiner's assertions are simply not supported by the actual teachings of the applied references, as explained below" and supported by paragraph 2 on page 6 ("Using the interpretations asserted by the Examiner, it is quite clear that the switching device 105 provides absolutely no arrangement for selective connection..." and paragraph 1 of page 7 ("The idea of providing a switch for switching a connection of a two-wire CAN communication line between one of two different elements does not make any sense..."). Insofar as applicant's arguments are persuasive to overcome the prior art of record, all claims (1-10) pending in the instant application are considered allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
